MEMORANDUM FOR THE RECORD

Morning Meeting of 25 June 1969

The Director is in Europe. Acting Director was in the chair.

DD/I noted that the briefing materials and charts for General Cushman's use at today's NSC meeting on the SALT paper have been delivered.

Godfrey reported that our embassy in Peru has provided no information on the Peruvian government decree which may have the effect of seizure of all private property. Godfrey has queried State on this matter.

In response to General Cushman's question D/ONE noted that NIE 11-2-69, Soviet Nuclear Programs, has been dropped from tomorrow's USIB agenda. After some discussion it was decided that the remaining items on the agenda do not warrant a meeting. DD/P called attention to a paper received from Martin Hillenbrand, Assistant Secretary of State for European Affairs, on the Soviet desire to open a consulate in San Francisco. General Cushman agreed that this would be a proper item for USIB consideration after the matter has been properly staffed.
